ITIL®

ITIL® has been designed to help organizations develop and manage their IT more efficiently & cost-effectively.

With more than 2 million practitioners qualified across 180 countries, ITIL® (IT Infrastructure Library®) is a widely established approach to IT Service Management. It provides a set of best practices for identifying, planning, delivering, and supporting IT services to businesses and can be applied to almost any organization.

Why ITIL®?

- Internationally respected certification
- Ability to accelerate career progression
- Improved ROI of IT
- Reduced cost/incident

Why SureSkills for ITIL®?

Quality-driven service management is the cornerstone of business success. SureSkills is the leading Irish provider of IT service management training and consulting. We are also the longest directly accredited company in Ireland, delivering over 3,000 exams every year. SureSkills are regularly audited to ensure our training programmes and trainers are consistent with the highest standards of the accreditation body, Axelos. We ensure that you can apply the knowledge and realize real business value.

"SureSkills have always been resourceful, reasonable, accommodating, and professional. All our training events have progressed seamlessly, in our office, in SureSkills and off-site. SureSkills is certainly our first point of call for training, and are now assisting us with training needs in the UK and Asia."

Jo Ferguson
Lead Project Manager
CME Group Belfast

PRINCE 2, PMP, Project Management Professional, Agile & Scrum

PRINCE2®

Mid-2017 marked the arrival of the updated PRINCE2 guidance and new foundation and practitioner examinations. Therefore, any current PRINCE2 practitioner certificate holder who passed the exam before the 2017 update remains relevant. Your current certification in PRINCE2 will remain valid until the end of its 5-year period and it is still applicable for PRINCE2 digital badge available via the PRINCE2 Membership programme.

However, AXELOS is updating the way in which PRINCE2 practitioners remain current. It is recommended that any existing PRINCE2 practitioners familiarize themselves with the changes by reviewing the new guidance or joining the PRINCE2 membership programme, which will provide exclusive content on the changes covered within the PRINCE2 2017 update.

Business Analysis

Our business analysis training courses follow syllabi set by the British Computer Society (BCS), leading to BCS Business Analysis certificates and diplomas.

This is the most recognised certification for business analysts in the UK and Ireland. A BCS-qualified business analyst will strengthen an organization's project team and will increase your rates if you are a business analyst. Our training is delivered by qualified experts who have years of practical experience!

Why Business Analysis?

- Industry recognised certification
- Acquire proven modern methodologies
- Develop effective consultancy and communication skills
- Can make a more effective contribution to your organization

Two Core Modules	Business Analysis Practice	→	One Knowledge-Based Specialism	Foundation in Business Analysis	→	One Practitioner Specialism	Modelling Business Process	→	Oral Examination

GDPR

The General Data Protection Regulation (GDPR) (Regulation (EU) 2016/679) is a regulation by which the European Parliament, the Council of the European Union and the European Commission intend to strengthen and unify data protection for all individuals within the European Union (EU).

In May 2018, a new chunk of EU legislation comes into force across the European Union. The GDPR brings data protection laws into the 21st century, taking into consideration the data privacy and security threats presented by today's technology. Validate your technical expertise with GDPR and work with our experts to prepare for GDPR certification

CODE	COURSE TITLE	DAYS	JAN	FEB	MAR	APR	MAY	JUN
SSDPEC3	GDPR: The Regulation, Data Protection & Privacy Awareness Session	0.5		16				22
	Ciaran Molumby, a GDPR Practitioner joins us to deliver a people focused workshop on the Regulation which will include a high level overview through to practical day to day issues in relation to all elements of Data Protection and Privacy. Ciaran has built this extensive knowledge base from 30 Years in Business and IT in Ireland and abroad. The course will give you the insight to consider how your own organisation can build a plan on the road to compliance.							
SSDPEC2	Data Protection Practioner Certificate	3		19				25

Amazon Web Services

Amazon Web Services (AWS) training enables organizations and individuals to gain the necessary technical competence and accreditations to help businesses move faster, while lowering IT costs and scaling applications.

Learn how to design, deploy and operate highly available, cost-effective and secure applications on our AWS courses led by qualified AWS Instructors. Validate your technical expertise with AWS and work with our experts to prepare for AWS Certification.

Why Amazon Web Services?

- AWS platform powers hundreds of thousands of businesses
- Market leader in cloud infrastructure
- One of the most sought-after qualifications
- Growing exponentially year-on-year

Why Sureskills for AWS?

SureSkills are Ireland's and Northern Ireland's only AWS approved training provider and we provide training when and where you want it. All our courses are taught by AWS accredited instructors (AAIs) and use only authorized AWS content. Whether you are a Solutions Architect, Systems Operator or Developer, our training will help you learn to design, develop, and operate available, efficient, and secure applications on the AWS Cloud.

"Excellent, AWS content and labs were great and the trainer's knowledge of all AWS material was very good. Pace was good. Whole process was very efficient and the training centre was well equipped, no issues at all – very professional."

Martin Clohessy
IT Platforms & Storage
Manager, DAA

CommVault®

CommVault's unique single-platform architecture gives users unprecedented control over data growth, costs, and risks.

SureSkills are still the only CommVault® Approved Services Provider (CASP) in Ireland with the necessary qualifications, skills, and experience to serve your business needs. We offer packaged or customized instructor-led training to ensure that you can deploy and maintain an optimal software solution that meets your business objectives. In addition, we are also the largest managed service provider of CommVault® storage support.

Why CommVault?

- World's leading data management company
- Learn to protect, access, and use all of your firm's data
- Unlock the vast potential of CommVault's software
- Increase authority and control in your IT department

Microsoft Official Curriculum On-Demand

Microsoft

Microsoft Official Courses On-Demand (MOC On-Demand) blend video, text, hands-on labs, and knowledge checks to help you build your Microsoft technology skills — on your own schedule, at your own pace, and in your own place.

No need to spend time and money travelling to a classroom location or adhering to classroom hours; with a computer and an Internet connection, your Microsoft Official Courses On-Demand come to you, any time.

After you purchase your course, you will receive a confirmation email with a redeemable course code, details, and instructions.

Note
- MOC On-Demand is currently available only in English.
- After course activation, the MOC On-Demand materials are available for 3 months. Access to an associated lab environment will also expire no more than 3 months from the date of activation.
- Each code may only be used once and cannot be shared. After it has been redeemed, a code cannot be extended or reused.

Call your SureSkills Training Advisor to discuss how you might blend an ILT Workshop with any of the MOC On Demand Courses Listed Below.

SureSkills offer all the Microsoft Applications courses in 2007/2010/2013/2016 & Office 365 versions

Business & Professional Development
In Association with Performance Partners Ltd.

Making organizational and personal development training engaging, practical, relevant, and enjoyable has been a feature of SureSkills business skills service for 15 years.

Our leadership, team, and soft skills training has consistently helped individuals and organizations to improve their organizational performance.

Our NEW business skills range now brings a development opportunity for people to hone their leadership, management, decision-making and commercial acumen in a manner that will positively impact on their skills, capability & effectiveness in key role(s).

In addition to individual skill and behavioural development, we offer a range of team development workshops that bring energy, alignment and cohesiveness to team relationships, and to the team's performance.

Our approaches now include flexibility with regard to learning to include:

- Digital learning support
- Online assessment and survey (fact-based) content
- New interactive formats working on your team's issues.
- Further blended and just-in-time learning opportunities
- Webinar-based live delivery or combined classroom and virtual mini-workshops
- Online supportive content

Building a **strong** team is both possible and remarkably simple

THE FIVE BEHAVIORS OF A COHESIVE TEAM™
Patrick Lencioni

Digital Marketing

SureSkills offer public scheduled and tailored programmes depending on the client's requirements

Our most popular programme, the SureSkills Diploma in Digital Marketing course is aimed at anyone looking to understand the key elements of building an effective digital marketing campaign. During the course you will cover best practice methods and analyze case studies throughout. This practical, hands-on course will provide you with a complete overview of all of the core channels and how they fit together in order to enable you to plan and deliver a successful digital and social media marketing campaign, applicable for both B2B and B2C businesses.

Why Digital Marketing?

- One of the world's fastest growing industries
- Affects the majority of consumers' purchase decisions
- A consistently high demand for digital marketing roles
- Constant need to learn due to a changing landscape

What will be covered?

Introduction to Digital Marketing, Search Engine Optimisation (SEO), Pay Per Click (PPC), inbound Marketing, Google Analytics, Email Marketing, Social Media Planning, Facebook & Twitter for Business, Online Video & LinkedIn for Business, Emerging Platforms & Blogging, Online Display Advertising, Mobile Marketing, Affiliate Marketing, E-commerce, Planning a Digital Marketing Strategy.

SureSkills empowers organizations to advance their world, their people and their goals through the power of technology and learning
